ER30001 "1968 INTERVIEW NUMBER "

This variable is the 1968 family ID number. The combination of this variable and Person Number (ER30002) provides unique identification for each individual on the data file. Individuals associated with families from the Latino and Immigrant samples, added to the PSID in 1990/1992 and 1997/1999, and 2017 respectively, were assigned 1968 IDs so that they, too, have unique identifiers compatible with the PSID structure for the core (SRC and Census) sample.

ER33415 "YEARS COMPLETED EDUCATION 97"

G90. What is the highest grade or year of school that (he/she) has completed?

The values for this variable represent the actual grade of school completed; e.g., a value of 08 indicates that this individual completed the eighth grade by the time of the 1997 interview.

This variable contains values for 1997 Heads and Wives/"Wives" from 1997 family-level data, although information about completed education is not asked annually for them as it is for other family unit members. This variable differs from the family-level variables for Head and Wife/"Wife" in the treatment of Heads and Wives/"Wives" who received a GED but did not attend college. The value for the family-level variable is the grade completed; for this individual-level variable, the value is 12. Education was re-asked of all Heads and Wives/"Wives" in 1985.
